Job Title: iOS User Interface Design Intern, Undergraduate/Graduate
Date: January 2012 – March 2012
Type Employment: Part-Time Intern (20 hrs./week)
Location: Newark, NJ
Date Posted: November 29, 2012
Requisition ID: BCT0002
Wage: $17/hr. – $24/hr. for Undergraduate Students
       Up to $29/hr. for Graduate Students

Background:

BCT Partners, in partnership with Johnson & Johnson, is launching a pilot program to create a Mobile Application Development Center (MADC) at University Heights in Newark, NJ. This center of excellence and innovation will be recruiting the best and brightest talent (students and professionals) to work with Johnson & Johnson and BCT Partners to build the next generation of mobility applications for the healthcare industry. Be part of a growing dynamic team focused on developing solutions on iPads and iPhones across Johnson & Johnson’s business segments that include Consumer, Medical Devices & Diagnostics, and Pharmaceuticals. Your work will directly impact the global business of Johnson & Johnson and allow you to collaborate with a wide variety of teams throughout the world. This premier iOS team will tackle some of the most challenging issues that Johnson & Johnson faces today while dedicating additional time to ideate new and innovative solutions. We are looking for a highly-driven, motivated individual that will thrive in our creative and collaborative environment and make an impact on the world around us.

Position Summary:

The individual will collaborate in a team of 5-8 people consisting of both developers and user interface designers of varying levels. Responsibilities will include the following:

- Creation of user interface designs and graphics for applications on the iOS platform.
- Running usability tests.
- Further creation of mobile best practices.
- Immersion into the healthcare industry to create innovative solutions.
- Rapid prototyping of new and evolving ideas.
- Adherence to the Agile/SCRUM framework.

Selected candidates will be employed by BCT Partners and work collaboratively with the Johnson & Johnson/BCT Partners Team.
Qualifications:

- Enrollment in an undergraduate or graduate program for an accredited college/university is required.
- Candidate must be in pursuit of a Bachelor of Arts or Bachelor of Science, preferably in the field of Web Design, Interactive Design, or equivalent major.
- Minimum GPA 3.0 is required.
- Competency in Adobe Creative Suite applications is required.
- Established web or application design portfolio and Agile/SCRUM experience preferred.
- Familiarity with iOS development and user interface design.
- Sophomore level and above preferred.
- Must have permanent US work authorization.

About BCT Partners:

BCT Partners is a management, technology and policy consulting services firm that works with government agencies, non-profit organizations, and corporations. BCT is a socially responsible consulting firm that develops solutions to complex problems with a spirit of commitment, excellence and integrity.
