Cooking With Friends

Abstract

Cooking With Friends is an easy-to-use Android app that helps chefs create, find, and share recipes. The app utilizes the networking features of mobile devices to allow users to connect their kitchens to the online world. It also has several features useful to chefs, like an ingredient list and a store of all the users favorite recipes. The app is designed to be very responsive, easy to use, and lightweight, and can be used by first-time cooks and professional chefs alike.
